

ROUTE and VIEW

Sunday, August 14, 2022 10:38 AM

If you load the home page for any new Laravel app in the browser, you'll see a basic "welcome" splash page. The Route "listens" for a URI and then loads a view (or HTML) in response.

```
1 <?php
2
3 use Illuminate\Support\Facades\Route;
4
5 /*
6 |-----
7 | Web Routes
8 |-----
9 |
10 | Here is where you can register web routes for your application. These
11 | routes are loaded by the RouteServiceProvider within a group which
12 | contains the "web" middleware group. Now create something great!
13 |
14 | */
15
16 Route::get('/', function () {
17     return view('welcome');
18 });
```
